Subject: Bring uber back

This is not right these drivers have every right to make a living for their families. I have never felt unsafe on a uber ride. Taxi cabs are very unsafe and dirty. Please bring uber back we need them in South Carolina.

Subject: I support Uber

PSC,

I have used Uber countless times and find the service to be excellent.

Uber provides a great service to the community and is more reliable and timely than taxis.

The ease of use is amazing, have any of you tried it? No awkward tipping, GPS is provided to the driver so it's so easy to go somewhere, getting an Uber is so much faster than a taxi it is ridiculous, and you have an automatic account. It's fantastic and if taxis are upset they have competition maybe they should provide a better service to the community. I have called taxis only to have them show up late, or not at all. What kind of background checks do taxi drivers go through? Do you know Uber drivers are more insured than taxi drivers?

You are doing South Carolina a great disservice by issuing this unwarranted cease and desist.

I support Uber. I support Uber in it's challenge of your orders.

It is time for South Carolina to adopt change and support Uber.

Best regards, Karen Lauziere

Subject: Uber

I used uber in atlanta on a business trip last year. It's cheaper than a cab and I had a great experience. Not to mention it would be nice to be able to call uber if anyone has too many drinks. Please bring uber to sc. Thx.

Subject: Uber

SC needs Uber. As a 60 year old single female who relies on cab service in many business situations, I have found Uber heads above any other means of public transportation. The drivers are very professional, knowledgeable, and reliable. Their cars are very clean and comfortable and above all a strong sense of safety. All of this not to mention the fares are very competitive and their service always consistent.

I have used Uber in other states also and prefer their service over any other. Please reconsider your decision.

Ginger Rhodes
